

WHAT'S NEW STAND UP PADDLING 2021

ADDICTED TO RIDE

BOARDRIDING SINCE 81

KARIN GERTENBACH
HEAD OF MARKETING

With its strong Hawaiian roots, Stand Up Paddling (SUP) has quickly become a mainstream sport, appealing to a huge range of users due to its accessibility and variety. Fanatic started with SUP boards back in 2011, by using our Boardsport expertise "since 81", we have been a key leader and pioneer in the sport from the start. SUP is not only a sport, it's also a lifestyle, with a great community. Newcomers are warmly welcomed, you meet a lot of great people and you can discover a whole new world of coastlines and lakes with a SUP.

SUP is by far the easiest to access watersport, with a broad range of users varying from professional wave riders, downwind racers & long distance record breakers; all the way through to yoga & fitness enthusiasts, or families & kids just having fun at the beach or lake. SUP has an extremely high female participation rate, you can start right away and have fun, with the added benefit of improving your health along the way.

In my job as Head of Marketing for Fanatic, I love connecting people via SUP – women, yogis, racers, surfers. It's great to step into new niches and making new connections all over again. Being a woman and a dedicated yogi myself, I personally love to promote that side of the sport, however I also love to watch races and join the excitement with our riders. Whenever I get the chance, I love to go for a SUP tour with my family or friends, or ride on the occasional wave!

Sustainability is a key issue for us going forward, working on products with the least possible strain on natural resources, whilst offering the longest life cycle is our goal – and working with dedicated paddlers and organizations to raise awareness of the current pollution issues in our oceans and waterways, all part of a broader sustainability programme for our company as a whole.

At Fanatic we are building composites and inflatable SUPs that will allow you to enjoy the stoke and progress in our wonderful sport, no matter what level you are at and what designs you like.

So, wherever you find yourself on the water this season, we hope you enjoy your Fanatic board!

ADDICTED TO RIDE
BOARDRIDING SINCE 81

NEW FOR 2021

04 PROWAVE

The new ProWave – our high performance Surf SUP design – totally re-designed and spiced up with speed and instant response, by our new wave SUP shaper Sky Solbach. When the surf is overhead and pumping, the new ProWave offers next level SUP surfing.

- › Fast surf scoop rocker line
- › Speed and drive enhanced via single concave entry that transitions into a double concave through the mid-section and into a quad V tail channel for extra hold and drive
- › Hard release edges in the tail for direct acceleration and light feel, with softer rails in the nose for smooth surfing
- › Nose outline and squash tail provide Shortboard

05

STRIKE

The new Strike was developed by Kai-Nicolas Steimer who combined his naval engineering background and SUP racing experience to find the perfect balance between speed and control. Three new sleek, efficient designs are quite simply the fastest boards you can paddle on flat water.

- › Slimmer outline for better glide
- › New nose shape and tail shape reduce pitching and keep the board flat when sprinting, and allow perfect water flow during racing
- › New rail shape boosts steering and manoeuvrability and makes drafting super easy
- › Reduced volume at the tail allows more stability and ease for the rider in pivot turns
- › Reduced amount of drainage pipes reducing drag and new shape allows faster draining of the recess
- › Available in Carbon (all 3 shapes) and Biax Fibre (largest model only)

NEW FOR 2021

06

BEE

The new Bee is the ultimate watersports weapon. We've packed four different dimensions of watersports into one board: SUP Surfing, SUP Foiling, Wing Foiling and Windsurf Foiling – you decide on the setup you ride.

- › Foiling enthusiasts looking for the ultimate 'watersports toy' for multiple disciplines
- › Wing, Windsurf, SUP Foiling and standard Wave SUP in one board
- › Small surf, rolling waves, ocean swells & breezy flatwater – fun in all conditions
- › New shape by Sky Solbach
- › Two sizes 7'8" & 8'2"

ADDITIONAL POCKET EDITIONS:

Joining our Fly Air Pocket Edition – our ultra travel friendly iSUP model – is our new Ray Air as well as the brand new Diamond Air Pocket Allround and Touring Women's Edition in lavender. All models are build is a tough but light construction that allows them to be packed into a backpack half the size of a regular iSUP.

- › Extremely portable, the ultimate travel companion
- › Tried and tested shape based on our popular Ray Air 11'6" and Fly Air 10'4"
- › Micro / Micro Light (Diamond models are under 7kg!) technology for weight saving and flexibility for packing
- › Click Fins – no tools required – fit and remove in seconds
- › Compact Pocket backpacks with easy entry zipper for board, paddle, pump, fins and accessories
- › Reduced area deck pad in standing area to aid packing size
- › Special Diamond Women's Editions (Diamond Air Pocket/Touring)

NEW FOR 2021

FLY AIR & RAY AIR:

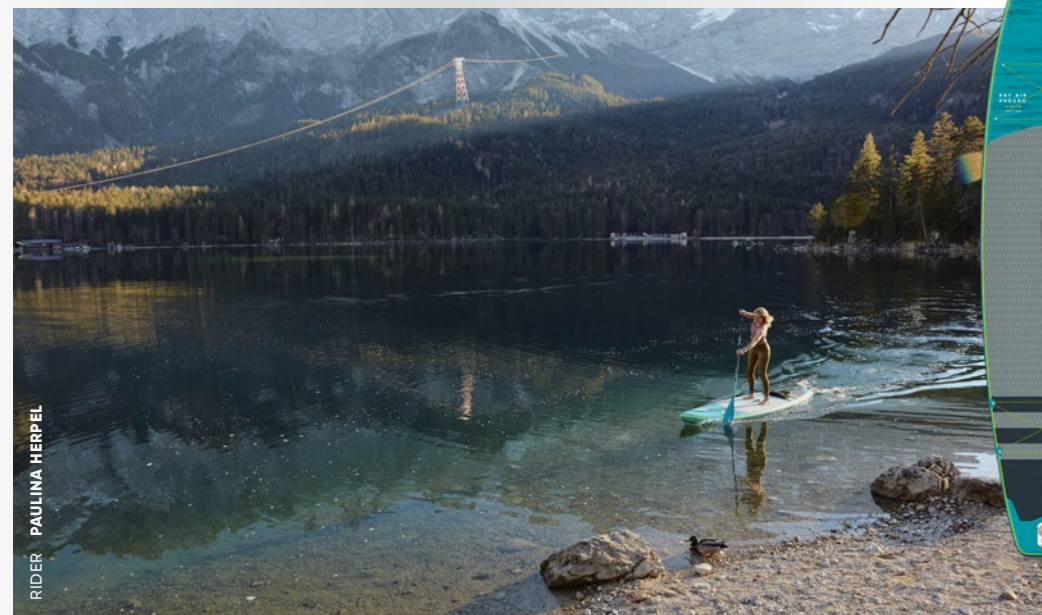

New red colour way for our bestselling Fly Air & Ray Air Pure inflatable models. Matching with the existing blue models and blue Pure paddle.

RIDER JANINA ZEITLER, PAULINA HERPEL

RAY AIR ENDURO:

The brand new Ray Air Enduro is the perfect board to bridge the gap between the Ray Air Premium and Falcon Air. The sleeker and efficient shapes of 11' x 29" and 13' x 30" offer great stability, glide and speed for longer touring trips.

RIDER PAULINA HERPEL

OTHER NEW MODELS

FLY HD:

The Fly All-round models get two new additions in 10'0" and 11'0" in our ultra robust Thermoform HD technology, which absorbs the unavoidable collisions of entry level riders with ease.

RAY BAMBOO:

Our popular 12'6" Touring shape is now available in a beautiful Bamboo Biax Fibre layup, which is not only an optical highlight, but also performs incredibly well and efficient for longer tours.

OCEAN MINDED

LET'S FACE IT

Our sport depends on a healthy environment – we all do! But up until today our sport is not the most sustainable thing in the world. We're consuming a large number of fossil fuels to develop, produce, transport and ultimately also get to the spot and ride our boards. Being out there itself is clean and the best we can do – but the way to get there leaves a trail. We at Fanatic are well aware of this and we're taking action to reduce our trail as much as we can – and more!

In order to OFFER YOU AN AFFORDABLE, long lasting PRODUCT THAT'S AS ECO-FRIENDLY AS POSSIBLE, we're optimizing the entire process to save fuels, plastics and energy on the production side and support carbon offset projects to balance our consumption on the other side. It's a continuous process we're pushing together with our partners to protect what we love.

CARBON OFFSET: We calculate and offset the carbon emissions caused by our products and processes by supporting recognized carbon offset projects, to make our products 'Carbon Neutral'.

R&D: In order to develop as efficiently as possible, every single prototype is developed by our R&D Team and built by Sebastian Wenzel – all the knowledge stays in-house. Our huge database allows minimal prototyping to the final production shape.

MATERIALS: A major factor for sustainability is quality and longevity. No one wants to buy a board that looks like a tree but also rides like a log or breaks like a match. We implement natural elements WHEREVER possible, but focus on quality. Our Fly Eco – built with Flax, Wood & Cork Layup – shows what's possible and we're excited to further expand the use of natural components.

PRODUCTION: Our boards are built at the leading production facility of the industry – not only in terms of quality, but also in terms of social responsiveness and sustainability.

PACKAGING: We've created a task force in order to optimize packaging to the minimum, using recycled materials, replacing single-use plastics with paper/cardboard and packing in a way to make recycling convenient for our customers.

SHIPPING: We're constantly improving ways to combine shipping from our production lines to our centralized warehouse in Europe and other key locations for our worldwide distribution. Together with our Boards&More partner brands ION and Duotone we're making sure our products make their way to you with the smallest fuel consumption possible.

Boom length	180 cm (4-piece)	185 cm (4-piece)	200 cm (4-piece)

CHARACTER

Easy to sail and effortless to uphaul, the Ride SUP rig is the ideal solution for light wind windsurfing on SUP boards (with mast track insert), or Windsurf / SUP boards such as our Viper Air and Ripper Air. All components are designed to make rigging as simple as possible, so you can just rig and go in as little as 30 seconds!

DESIGN FEATURES

- Light Dacron sail for a smooth power delivery and a light feeling
- 3-piece compact boom works as a normal boom but can be stored more easily
- Mastbase extension and boom with markings help setup the sail easily
- Entire rig comes in an ultracompact bag that is easy to transport / store
