

SKY WING

Our new range of Sky Wing models grows to nine dedicated shapes and takes efficiency to another level. Ride the smallest board possible in the lightest of winds!

The range is split in three different directions, with the two smallest shapes of 4'6" and 4'7" being dedicated Prone / Wing advanced combo boards, with low Volume, more radical bottom contours and all features needed to push the limits.

The Wing all-round range from 4'8" to 5'8" has its focus on the earliest take-off possible with minimal board size. Our shaper Sky Solbach combined the early planing rocker line of our previous 5'4" with a sharp release box rail and slight bevels in the nose section. The extra glide allowed to pull in tail and nose outline slightly to reduce catching in turns and on the wave. The clean approach with plenty of volume under your feet make for an uninterrupted touch-down, which helps learners and hardcore freestylers alike.

The sizes 4'8" / 5'0" / 5'2" / 5'4" / 5'6" are also available in our lighter Team Edition version.

The 6'3" is dedicated for everyone getting into Wing Foiling. The extra length and heaps of volume turns you into an addicted winger in no time! The 6'3" is also available as comfortable Soft Top version.

SKY WING

KEY FEATURES

- › 9 new shapes for all riders and conditions
- › Optimized rocker line and hard release edges for maximum glide and earliest take-off possible (sizes 4'8" and bigger)
- › Clean bottom contours with slightly rolled Vee in the nose section for uninterrupted touch-downs (sizes 4'8" and bigger)
- › Additional footstrap inserts for double front strap, single diagonal front strap or new straight single front strap
- › Double screw inserts for back strap
- › Pulled in nose and tail sections to reduce swing weight and avoid catching in tight turns and on the wave
- › Recessed deck shape for comfort, control and a direct connection with the foil
- › Centerline bumper on sizes 5'6" and bigger
- › Carrying handles on deck and bottom for easy transport with or without foil mounted
- › Lightweight Vacuum Epoxy Construction (VEC) or Carbon Prepreg TE version with optimized layup and significantly reduced weight compared to previous models

RIDER: OLIVIA JENKINS

BEE

BEE
7'8" / 8'2"

The new Bee is the ultimate watersports weapon. We've packed four different dimensions of watersports into one board: SUP Surfing, SUP Foiling, Wing Foiling and Windsurf Foiling – you decide on the setup you ride.

- › Foiling enthusiasts looking for the ultimate 'watersports toy' for multiple disciplines
- › Wing, Windsurf, SUP Foiling and standard Wave SUP in one board
- › Small surf, rolling waves, ocean swells & breezy flatwater – fun in all conditions
- › New shape by Sky Solbach

RIDER: ARTHUR ARUTUN

SKY AIR PREMIUM

SKY AIR
5'0" / 5'4" / 5'8" / 5'10"

The travel friendly version of our popular Sky Wing models comes in 4 sizes from 5'0" to 5'10" and offers incredibly stable flight for an inflatable board. Our extra rigid Carbon plate sits right under the riders feet, making sure the foil follows every command instantly.

- › Foil mounted on solid Carbon plate that stiffens entire stance area
- › Integrated bottom handle for easy handling
- › Extra nose rocker for safe touch-downs
- › Silicon rail edge for early release
- › Footstrap inserts for 3-strap configuration
- › Coming in Sky Air bag with room for board, foil and wing (without boom) – packing size 95 x 75 x 20 cm
- › One-solution Double Action Pump with adapters and special gauge for board and wing. Triple Action Pump Wing Edition is offered as optional accessory

- 1 Choose Board depending on discipline
- 2 Also available as Sky Wing Soft Top in 6'3"
- 3 Also available as Sky SUP Foil LTD Version in 6'3"
- 4 Also available as Sky SUP Foil WS Version in 6'11"

If you find more than one recommended setup with 3 bullets for your weight category and skill level, choose the smaller model if you're on the lower end of the weight scale and the larger one when you're on the upper end.
