

FANATIC FALCON TE and Z-FINS combination chart 2021

FALCON / Z-FIN SIZE*	SAIL SIZE						
	5,0	5,5	6,2	7,0	7,7	8,4	9,0
80	26-27	27-28	29-30				
90	28	29	30	33			
97	28	30	32	33	34		
107		33	33-34	35	35-36		
115			35	36	36-37	38	
121					40	41	42
130					41-42	43-44	44-45
140					43	44	45-46

* Rider weight around 80kg. (for lighter guys -1cm, for heavier guys +1..2cm)

S = soft

S - = extra soft (start from this stiffness)

S - - = extra - extra soft (more power, needs better skills from a rider)

DIFFERENT Z-FINS MODELS:

zspeed delta - special speedblade, delta shape.

zspeed ASY - special speedblade, asymmetrical profile (for starboard or port tack)

ZSL - wider wind range, also when sail is not fully powered

ZSLM - better in choppy conditions, when sail is fully powered. Helps to keep the board railed in chop. The same outline as SL, just different profile

ZFM - formula model, designed for the best up/downwind performance
